

Refer page 7 –second paragraph:“The Integrated Report should be written in clear and understandable language in order for it to be a useful resource for stakeholders”. However on page 15,in Box 2 , it states that “the financial information used in the Integrated Report should be derived from the Audited [IFRS] annual financial statements. These two requirements are contradictory : the entity should be permitted to present financial information in a flexible format for user understandability but must indicate any departure /non-application of IFRS .
